Elder Abuse Photos and the Politically Motivated Forces that motivated the Elder Abuse

Trying to achieve political writing inside the USA about the USA. Weaponzed falsely-premised violence and human rights abuse Targeting law abiding citizens in large scale schemes now described by thousand and perpahs tens of thousands of victims of the USA, often themselves police, fire ems, repoerters and authors, or witnesses who simply know (or knew) to much about the USA.

It is the scheme of a long-corrupt terrorist and domestice terrorst corrupt USA in a long term DARVO campaigng against law abiding citizens using dirty tricks to make normal citizens apper an Enemy of the State. Deny Attack Reverse Victim and Offender. Corrupt government denies State violence while participation in violence against the population.

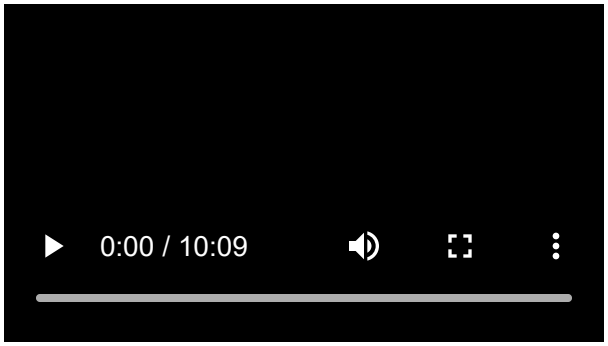
A interview by the US Secret Service while in Sherrif's detention Arlington County, Virginia I viewed quite positively

I had been shouing to lynch Barrack Obama Jr and drag him around the National Mall by by the neck after that and a few other comments of similar nature. I did usaully say "in accordance with US law" although I offered no citatoins on that besides Bennedict Arnold who I did mention a few times too. THis requires contex most of which I described to the Secret Service agents who arrived. 1) I had felt I was completley railroaded several times that led into my detentions. When I was to go to trail or hearings I was NOT taken to them (and there were possble doubles of using my name) in that same cell block, I would sign over my records IF I believed them to be true but I assered facts were faked in rail-roads of me. Further; I asserted the reason at this time I was talking about Obama (in an arrest that had NOTHING TO DO WITH MY POLITICS) all others, the Sherrifs, mental health services there were ALWAYS talking about Obama this and Obama that ...and all seemed to be connected to him thus that is who I blamed. A clearly rigged psych eval described me as a bomb builder and later on thought that would be a great idea.

The Secret Service did NOT reocmmend felony charges, but a pscy hold that turned out to be quite extensive but did avoid penal detention and a felony charge.

> Video #3 Good Vs Evil: we must fight on https://youtu.be/OikzbQIsZYI?si=xG88d133Wg3eNZK5

> You are not going to stop us. You are not going to stop us and there are backup plans, extensvie evidencve which will live on no matter what.



❖ Good Versus Evil We Must Fight on Against Politcially Motivated Lies and Fabricated Evidence that Destroys Lives

“

- **➔ 30 seconds Coercive demands based on false claims:** Jen Moore alleged that certain criminals targeted vulnerable adults and trafficked in assets of that person by falsely portraying them as mentally incompetent or disabled in order to gain control over their finances. According to her claim, this misrepresentation was used as part of a fraudulent legal or compensation process designed to seize assets, including trust funds, through fabricated allegations and financial demands. The allegations though false in fact were very destructive to the target in reality. More formal/legal tone “She stated that, in her view, some individuals were improperly declared mentally unfit as part of an alleged scheme to defraud them and redirect their assets through misuse of legal and claims mechanisms.”
- **➔ 30 secs to 2:30s Politically backed Social Cleansing:** “She alleged that the campaign was enabled because the victim was unpopular, and the false accusations were framed by others as serving a broader social purpose.” “She alleged that, despite being unlawful, the program was tolerated or supported at higher levels because the individual being targeted was unpopular, and the mistreatment was wrongly viewed by some as socially justified.” “She alleged that the campaign was enabled because the victim was unpopular, and the false accusations were framed by others as serving a broader social purpose. *In reality several of the persons being attacked were being discredited because as children they were already victimized in McMartin preschool or Franklin NE. Further discrediting and abuse of them further hinders truth telling about those conspiracies*.”
- **➔ 2:30 to 3:28 These go back to Watergate and the 1970's:** Public hearings on the CIA, and attempts to control the narrative of the JFK assassination and that from a half century ago.
- **➔ Video Continues:** Like all other videos she assert only a very long story-line can explain this, and why behavior research is linked to MK-Ultra even since 1925.

”

Calculated Traumatic Abuse of Elders and the Emotinally Volatile With Calculated Abusvive Traumatic Conduct

Protection Racket as Abuse

Jen Moore in her reporting on law enforcement misconduct was an extortion scheme in the form of a Protection Racket.

❖ Extortion Scheme operating as Protection Racekt

“

- **→ Fabricating Evidence:** That some misconduct has occurred and the Target of the Extortion scheme is linked to the misconduct. This can be by planted items, identity theft, etc.,.
- **→ Finding Evidence:** After items or backstories to events have been fabricated to implicated some not actually involved in the misconuct the evidence is found to exist by the very people who fabricated it.
- **→ Fabulising the Allegations:** Those operating the Protection Racekt assert they are heroes perhaps previosly un-sung heroes now who are policing against misconduct the attribute to someone other than themselves.
- **→ Extorting the Mark over the false allegations:** The allegations (though unfair and daminng) become the basis to Extort the Targe.
- **→ Corcersive Actions:** Demands for unlawful debts debts that are not due
    - **→ → Demands for Compensation:** False victims will ask for compensation for harms the allege improperly allege to be true.
    - **→ → Attempts at Reinforcing the False Narrative:** Verbal statements to the Target of the extortion scheme that they are guilty, that due to guilt "owe," that they have agreed to a compensation demanded, all go along with the extortion narrative that a harm has been done and a harm is being compensated as narrative.
    - **→ → Demands for other compensation:** Patrolling fees for security services, etc.
    - **→ → Identity Theft** Relying on an imposter to force agreement not agrred to by the real person is an act of coercing the participation in agreements that the real person whose identity was stolen is charged for.

”

Psyciatric Driving

Understanding the levers of the mind

❖ **Psychiatric Driving**

I am trying to include a fancy sound in my writing. "Understanding the levers of the mind" sounds like what I am trying to say but "understanding the leevers of the mind" sounds like what I am trying to say in a fancy way. Is there a version of "levers" that sounds Brtish and fancy?

> “
>
> - ➜ **A refined version:** *Once the calculus of a person’s mind has been studied*, its equations can be put to work by *supplying the variables that govern that person’s decisions*.
> - ➜ **More “British-fancy” / essayistic:** Once the calculus of the mind has been examined, its equations may be put to work by *introducing the variables upon which decisions depend*
> - ➜ **Slightly darker, more intellectual:** Once the calculus of a mind has been *mapped*, its equations can be *exploited* by *manipulating the variables* that *shape decision-making*.
> - ➜ **Maximum elegance, minimal mathiness:** Once the calculus of the mind is understood, its *equations can be made to serve [exogenic influences]* by *adjusting the variables that guide choice.*
>
> Jen Moore and Ed Donegan's calculus. "*You will never stop the truth, whatever you do to us, however much you threaten use (or worse) Truth is harder to kill than a person, and live free in the fight for Truth*.
>
> ”

Already a borderline who has volative emotions in normal experiences in live traumatized intentionly to produce the damages to a person the trauma is expected to cause the traumatized person.

Fight, or flight? What is you choice going to be? It is going to be one or the other one way or another

> Video 5.1 PTSD, Isolation and fighting on and the 1 minute mark she explains Stalker conduct

Death Threats, "Noise Campaigns" also called "Terror Stalks, Gang Stalks, Skimmington, Rough Noise. Street Theater, Skimmingtons". Objects have noises a motorcycle reving, a dog barking, objects have smells, roses and pleasant aroma, but what noise? The homeless and bag ladies spreading thier emaciated legs apart at you making faces with smile of under 3 teeth? Fat ghetto black women hiking up clothing and making lews comments or laying in front of you with legs spread? Derelict wet brain drunks stagging along the sidewalk babbling in a skid row dialect far below anying in use in state prisons. Other gang members who if they completed any education some of the might have comleted juevinal detention but some escaped completion of it, or did so in another country. People putting their buttocks inches from your face or spitting on you rambling at you with spittle falling from distorted lips. Use of harrasing conduct of others to pesters and annoy including abusive and confrontational and contested statements at a target are part of "verbal battery" of people to draw peope into fights.

----- QUOTED -----

They’re just wonderful kids. I’ve been through so much, and they have too. They need human contact. They need to learn how to trust again. And they need the good people of this country—because there are so many of us—to step forward and be that person they can trust. Someone who will listen. Someone who will stand up in front of them and on behalf of them.

We need to pound on the doors of ICE, the FBI, Congress—whoever it takes—and tell them to listen to these stories. We need to be their feet, their voices, their hands. Right now, because of the level of trauma

they've experienced, they are sometimes incapable of doing that for themselves. I've been incapable at times too. Other times I've been fairly capable. I'm just doing my best to move forward in my own way.

But they need us.

To everyone watching these videos—watching other people's videos—everyone who is concerned about what's going on in this country: fight. Fight, fight, fight for these kids. Call your congressman. Call whoever you need to call. Call federal agencies. They already know what's going on, but let them know you know. Let them know you're paying attention, that you care, that you're not going to stop. That you'll write letters, make calls, and refuse to let this be buried like the Franklin scandal or so many others throughout our history.

We are not going to let that happen anymore.

We are joining together as an army of heroic citizens—standing up for our country, for innocent people, for whistleblowers, and for victims—to change these circumstances. The power belongs to the people, not to those who have stolen it. And we are going to take it back.

I guess I needed that little rah-rah speech—for myself as much as for some of you. I'm checking out for now, and hopefully the plane leaves soon.

----- END QUOTED -----
